How to find your MAC address on popular devices

Apple TV

- Go to the main menu on your Apple TV, and select “Settings.”
- In the Settings Menu, select “About.”
- Here you can find your MAC Address listed as the “Wireless ID”

Xbox One

- Press the “Menu” button on your controller.
- Navigate to the Settings page.
- Select Network.
- Select Advanced Settings.
- MAC address will be listed next to Wireless MAC on the right hand side of the screen.

Playstation 4

- Turn on your Playstation 4 without any disk in the drive and wait for the menu to pop up.
- Navigate to the “Settings” icon (located on the far left).
- Select the “System” icon under the Settings menu.
- You will see your MAC address listed on this screen, containing letters and numbers in the format xx.xx.xx.xx.xx.xx.

Roku

- From the Home screen, press Up to make the Menu Bar appear.
- Select Settings.
- Select Player Info.

Amazon Fire Stick

- From the Fire TV or Fire TV Stick’s home screen, scroll down to “Settings”.
- Next, scroll to the right and select “System”.
- Next, Scroll down to and select “About”.
- Next, Scroll down to “Network”. Your Fire TV or Fire TV Stick’s IP Address will be listed on the first line on the right as a set of 4 numbers separated by periods. When entering this IP into an application that requests it, enter all 4 numbers including the periods.
Nintendo DS

- (Applies to: New Nintendo 3DS XL, Nintendo 3DS, Nintendo 3DS XL, Nintendo 2DS)

Nintendo Wii

- Go to the Wii Channel
- Select Wii Options (round button in the bottom left corner of the screen with the word Wii on it)
- Wii Settings (second page)
- Select Internet
- Select Console Information
- The first line will have the MAC Address

Playstation 3

- Start the PlayStation 3 with no disc inserted
- Select the System Settings icon and push the “X” button
- Select System Information and push the “X” button
- The third line will be the MAC Address

XBOX 360

- From the Xbox Dashboard, go to My Xbox (select the Xbox logo on the controller) > Settings > System Settings
- Select Network Settings
- Select Wired Network or Wireless Network based on your connection to the internet
- Once you are in the correct network tab, Select Configure Network > Additional Settings > Advanced Settings
- The 12 digit MAC address will be listed at the bottom of the screen

Chromecast

- Open the Chromecast app on your computer
- Click Settings
- Find the MAC address at the bottom of the window. The system’s MAC address is located at the bottom-left corner of the Settings menu.

Amazon Echo

- Download the Amazon Alexa app to your phone or computer and sign in with your Amazon account.
- Connect to the wireless network transmitted by your Echo device.
The wireless MAC address for your Echo can be found at the bottom of the Echo Setup screen in the Alexa app.

Google Home

- Plug in your Google Home
- Download and open the Google Home app on your phone.
- You should see your Google Home listed. Select it then press Set Up.
- Accept the prompt allowing your phone to connect to your Google Home.
- Answer the set up questions listed.
- Enter the location of your Google Home and select Continue.
- The wireless MAC address will be listed at the bottom right corner of the screen.

For printers print out the configuration page for your device.
